

2023 Radiation and Scattering of Electromagnetic Waves RSEMW

RSEMW-2023

June 26 – 30, 2023

Divnomorskoe, Krasnodar Region, Russia

SHARE YOUR EXPERIENCE AND GAIN NEW KNOWLEDGE

TOPICS OF THE CONFERENCE

- electrodynamic theory of antenna systems & antenna synthesis;
- theory, design, and technologies of antennas and antenna arrays;
- antenna and feeder measurements;
- systems for computer-aided-design of antennas and antenna-feeder devices;
- theory of electromagnetic field;
- radiation and propagation of electromagnetic waves in media;
- electrodynamics of nonlinear structures;
- applied electromagnetism;
- propagation and scattering of optical waves & applied optics;
- radar absorbing materials and coverings & controlled coverings;
- nonstationary electromagnetic fields and signals;
- solid-state microelectronics for ultra-high and extremely high frequencies;
- program and hardware facilities for signal processing;
- spatial-temporal signal and field processing methods in radiolocation and telecommunication;
- electromagnetic waves in medicine and ecology;
- information security by means of applied electrodynamics.

CONFERENCE VENUE

The Conference will take place in a beautiful city of Gelendzhik on the Black Sea Shore. Clear blue lagoon in the Gelendzhik Bay that is surrounded with picturesque mountains of Markotkh Range create unique atmosphere for both productive work and pleasant leisure.

ORGANIZERS & SUPPORTERS
